

## Dr. Matt Coler

---

CONTACT INFORMATION	Office 0.35 University of Groningen Campus Frsylvân Ljouwert, The Netherlands	<i>email:</i> <a href="mailto:m.coler@rug.nl">m.coler@rug.nl</a> <i>Twitter:</i> <a href="https://twitter.com/mlcoler">@mlcoler</a> <i>ORCID:</i> <a href="https://orcid.org/0000-0002-7631-5063">0000-0002-7631-5063</a> <i>WWW:</i> <a href="https://www.rug.nl/staff/m.coler/">https://www.rug.nl/staff/m.coler/</a>
RESEARCH INTERESTS	I adopt interdisciplinary and transdisciplinary approaches to solve scientific and societal problems. My main research interests include: <b>language technology</b> (speech analysis, speaker-state detection, prosodic and paralinguistic phenomena), <b>linguistics</b> (agglutinative morphology, subtractive disfixation, Amazonian/Andean languages, minority language documentation), <b>cognition</b> (sensory perception, semiotics, phenomenology, soundscapes)	
EDUCATION	<b>Free University Amsterdam, NL</b> Ph.D. in Linguistics. 2010.  <b>Free University Amsterdam, NL</b> M.A., Linguistics <i>cum laude</i> . 2006  <b>New York University, NY, USA</b> Graduate studies, Linguistics. 2004  <b>University of Massachusetts, MA, USA</b> B.A., Philosophy, minor in Mandarin Chinese. 2001  .	
PROFESSIONAL EXPERIENCE	<b>University of Groningen / Campus Fryslân – Ljouwert, NL</b> <i>Associate Professor, Language &amp; Technology</i> <b>07/2020 – present</b> <i>Assistant Professor &amp; Research Program Manager</i> <b>09/2016 – 06/2020</b> Within the <i>Governance &amp; Innovation</i> unit, served as Program Manager for the Culture, Language & Tech Flagship, developed the Voice Technology MSc., designed, coordinated, and instructed 3 courses in the Global Responsibility & Leadership BSc. University College Fryslân, collaborate on the Multilingualism Center of Excellence initiative with the Frisian Academy, acquired University Teaching Qualifications (UTQ/BKO), supervising/supervised 10 PhD students. Additionally, Chair of the Ethical Committee, member of the Admissions Board, and Open Access Ambassador.  <b>Innovation Center for Sensors &amp; Sensor Systems – Assen, NL</b> <i>Department Head, Cognitive Systems</i> <b>01/2012 – 12/2016</b> Managed team of PhDs, postdoctoral researchers and senior scientists to develop acoustic sensors on projects relating to cochlear implants and acoustic event detection. Transformed research projects to market products, acquired financing for research, co-authored patents.  <b>HvA University of Applied Sciences – Amsterdam, NL</b> <i>Lecturer</i> <b>06/2011 – 01/2012</b> Coordinated and taught courses on research methods, management, and business English.	

**Free University Amsterdam – Amsterdam, NL**

*Postdoctoral Researcher*

**01/2011 – 05/2011**

Designed and implemented a language database to model phonetic and phonological phenomena relating to nasal harmony in highly-endangered languages.

**Free University Amsterdam – Amsterdam, NL**

*PhD Researcher*

**01/2006 – 12/2010**

Conducted independent fieldwork in the Andean highlands under extremely adverse conditions to document an endangered language variant. Results are published in Coler (2014).

**ADDITIONAL  
AFFILIATIONS**

Associated Member, CNRS UMR 2563 – [CLLE-LTC Cognition, Langues, Langage, Ergonomie – Laboratoire Travail et Cognition](#); CNRS Délégation Midi-Pyrénées: Toulouse, Midi-Pyrénées (FR)

Member, Societas Linguistica Europaea (EU)

Expert Panelist (Cultural Anthropology & Linguistics), NSF (USA)

Consultant, Science & Entertainment Exchange – US National Academy of Sciences (USA)

**GRANTS**

H2020-MSCA-RISE-2017 - [COLING](#). 1.58M€ of which 189k€ is for my team. – Additional funding provided to send all my PhD students to the Smithsonian Institute (Washington, D.C.) for up to six months each. Additional funding to facilitate student/staff exchange at international partner institutes. I serve as a member of the Steering Committee and as a Work Package Leader.

H2020-FET-Open - [Phoenix: Exploring the Unknown through Reincarnation and Co-evolution](#). 3.6M€ of which 237k€ was for my team. Project involves developing successive generations of evolving hardware to explore inaccessible environments. I was Work Package Leader and Management Team Member. Completed in 2019.

Polish Science Foundation TEAM - [Language as a cure: linguistic vitality as a tool for psychological well-being, health and economic sustainability](#). 814k€. Completed in 2019.

Interreg VA [ID3AS](#) - Acoustic event detection. 9.75M€ of which 200k€ was for my team. Completed in 2018.

**ACADEMIC  
LEADERSHIP**

Award Committee Member, [GUF-100](#) prize for Campus Fryslân alumnus (2020)

Expert Panelist for National Science Foundation (2014, 2015, 2019)

H2020 Evaluator for Research Executive Agency / European Commission (2018, 2019)

Reviewer for many A-level scientific journals

Management Team & Work Package Leader, H2020-FET-Open - [Phoenix](#) ([H2020-FET-Open](#))

Founding Member, [Centre for Research & Practice in Cultural Continuity](#)

Steering Committee & Scientific Coordinator, COLING (H2020-MSCA-RISE-2017)

Scientific Board, Polish Science Foundation TEAM grant, [Language as a cure: linguistic vitality as a tool for psychological well-being, health and economic sustainability](#)

Scientific Committee Member of [Engaged Humanities](#): preserving and revitalizing endangered lan-

guages and cultural heritage (Twinning Project H2020 -ENGHUM2017)

Program Committee for *1st joint spoken language technologies for under-resourced languages and Collaboration and computer for under-resourced languages*, a joint Special Interest Group of ELRA and ISCA. Pre-conference workshop for LREC 2020.

Scientific Advisory Board, Scientific Advisory Board Member, Foundation ICT for Brain, Body & Behavior i3b Foundation, Wageningen

Serve on Defense Jury for many PhD defenses: 2011 (x2) 2015 (x1), 2016 (x2), 2017 (x2), 2018 (x1), 2020 (x1)

Chair of Ethics Committee, Campus Fryslân (2018–present)

[Open Access Ambassador](#) for Campus Fryslân (2019–present)

Admissions Board Member University College Fryslân (2018–present)

Chair, Committee Member and/or Panelist of multiple international conferences, including SLTU-CCURL at LREC-2020 “Spoken language tech for under-resourced languages”, [ICLaVE-10](#) “Diaspora languages” (2019), COLING “Language Tech for Minority Languages” (2018-2019), [EvoStar2017](#), [EuroNoise 2015](#) (soundscape session), [Big Data CEEDS](#) (2013) Google, London, etc.

#### TEACHING & SUPERVISION

- Course coordinator & Lecturer at University College Fryslân - Language & Culture II (2020)
- Course coordinator & Lecturer at University College Fryslân - Language & Culture I (2019)
- Lecturer at University College Fryslân - Academic Communication (2018)
- Lecturer at the Technical University Eindhoven - Knowledge representations (2015)
- Lecturer at the Free University Amsterdam - Anthropological Linguistics (2012)
- Lecturer at the HvA Amsterdam University of Applied Sciences (2011-2012)
- Supervisor of postdoctoral researchers, PhDs, Master’s, undergraduates, interns and research assistants (2013-present)
- Invited speaker at dozens of specialist conferences worldwide

#### PHD STUDENTS

- P. Do - Uni of Groningen. Defense: 2024.
- C. Sandoval - University of Lisbon. Defense: 2024.
- Y. Wang, Faculty of Arts - Uni of Groningen. Defense: 2023.
- G. Pinto de Faria Junior, Dept. of Linguistics – VU Amsterdam. Defense: 2021.
- V. Verkhodanova, Campus Fryslân - Uni of Groningen. Defense: 2021.
- J. Amelsvoort, Campus Fryslân - Uni of Groningen. Defense: 2021.
- V. Boswijk, Campus Fryslân - Uni of Groningen. Defense: 2021.
- B. Dijkstra, Campus Fryslân - Uni of Groningen. Defense: 2021.
- M. Everhardt, Center for Language and Cognition – Uni of Groningen. Defense: 2022.
- A. Yaman, Dept. of Mathematics & Computer Science, Technical Uni Eindhoven. Defended in 2019.
- E. Bild, Dept. of Human Geography, Uni of Amsterdam. Defended in 2019.

CURRENT PROJECTS (SELECTED)	<p><b>Voice Technology MSc.</b>: The Voice Technology MSc program will train a new generation of graduates to catalyze the burgeoning development of voice technologies, promoting innovations that radically transform how humans interact with connected devices and the Internet of Things to the benefit of humankind. Achieving this entails situating Europe at the forefront of voice technologies, liberating it from the profit-driven stranglehold of Silicon Valley and private enterprise and into the warm embrace of European academia where research can take the field in radically new directions.</p>

**A.I. platform for multilingual colonial texts:** Working with Nick Emlen (University Leiden) and Prof. Lambert Schomaker to train an A.I. algorithm ([Monk System](#)) to analyze a colonial text known as the *Vita Christi*. This is one of the longest and richest texts ever written in a native South American language by a native speaker. The work is very rare and inaccessible, so this project will make it available to an interdisciplinary range of scholars and to community members themselves together with colleagues from the Digital Humanities.

**Perception & Salience in the Brain:** Together with PhD Candidate Vincent Boswijk, we investigate linguistic salience and language processing, which touches upon topics such as frequency, linguistic change, and processing load. We focus on the context of the Frisian language, with fMRI experiments that target the effect of word frequency on the processing effort and mapping the neural correlates of sound changes.

**Recognizing Parkinson's Disease from Multilingual Voices:** Together with PhD Candidate Vass Verkhodanova, we examine speech of patients with Parkinson's Disease (PD) to determine how PD is manifest in speech and how medical experts detect the disease based only on voice. We analyze acoustic cues specific to the speech of multilingual PD patients in several languages to determine on which cues experts rely when diagnosing PD. By bridging speech processing tools and expert knowledge, we seek more insight into production and perception of pathological speech and to develop techniques to automatically detect PD from speech.

- ADDITIONAL SKILLS
- Applications: L<sup>A</sup>T<sub>E</sub>X, Praat speech analysis software (formant analysis, transcription, melodic analyses, transcription, etc.)
  - Certificates: University Teaching Qualification (UTQ/BKO)
  - Languages: English (native), Brazilian Portuguese (spoken), American Spanish (spoken), Dutch (intermediate), Mandarin Chinese (rusty)
